

PENNSYLVANIA PROFESSIONAL LIABILITY JOINT UNDERWRITING ASSOCIATION

Service Fees

The Association charges the following service fees:

Returned Checks

Checks returned for any reason (i.e., insufficient funds or stop payment) - \$30 per check per occasion. Generally returned checks are not re-deposited as there is a significant time delay from the time that notice that the check will be returned and the actual receipt of the check from the bank. However, if the Association deposits a returned check at the payer's request the charge applies each time the check is returned.

Policy / Claim History Reports / Coverage Verification for Past Periods

These reports are available to former policy holders for a fee of \$25 per policy holder.

If a policy holder was represented by a licensed agent or broker while the policy was in force, this agent or broker may represent the policy holder in subsequent matters related to the policy unless the policy holder indicates that such party no longer may represent them.

This means that such parties may request a policy / claim history report or coverage verification for past periods on behalf of the former policy holder. Any other party requesting such information must have the written authorization of the policy holder, as would be the case if the policy was still in force.

No charge will be made for any such report while the policy is in force.
